

Technical Sales & Estimating Engineer

Steelway group are a market leading provider of access metalwork solutions, fencing, and security products across a diverse range of sectors, notably utility, transport, nuclear and local authority markets.

We have an excellent opportunity for the right candidate to join our growing business at an exciting time within the company's 94-year history. We are looking to recruit an enthusiastic Technical Sales Estimating Engineer who will work alongside our other talented team members.

Reporting to the Sales & Estimating Director, the successful candidate will receive full training and support. The role would suit someone with experience in a similar role, or we would consider a graduate trainee or someone who has previously completed an engineering apprenticeship or has experience in a drawing office/design environment.

Responsibilities

As a Technical Sales Estimating Engineer, you will.

- Assist in the building of good relationships with our clients
- Produce technical quotations and estimates that are clear, detailed, and accurate.
- Liaise with the project team, client, architect, and structural engineers to gather relevant information.
- Communicate with clients to gain feedback on estimates.
- Attend both internal and external meetings.
- Maintain files and records.

Knowledge, Skills, Experience

- Ability to read and work with engineering drawings is essential
- Previous experience in fabrication / engineering environment and/or design office preferred
- A good level of computer literacy, especially in Excel.
- Organised with a keen eye for detail
- Good communication skills both verbal and written.
- Driving licence is preferred.

Benefits

- Salary negotiable dependent on experience
- 37.5 hours per week Monday – Friday
- 25 days holiday plus 8 days statutory
- Pension
